DIRECTIONS

STONY BROOK UNIVERSITY

Stony Brook is one of America's most dynamic public universities, a center of academic excellence, and an internationally recognized research institution. The *Times Higher Education World University Rankings* lists us among the top 1 percent of the world's universities, and *Kiplinger* names us one of the 30 best values in public colleges. We are a member of the prestigious invitation-only Association of American Universities.

BUSINESS

Stony Brook fuels Long Island's economic growth. We generate \$4.6 billion annually in regional economic impact. Our research has produced more than 1,900 inventions and 550 U.S.-issued patents.

We manage four business incubators, including the Long Island High Technology Incubator and the Stony Brook Incubator at Calverton. Industry-academia partnerships flourish at our state-designated Centers for Advanced Technology. The Strategic Partnership for Industrial Resurgence and the Small Business Development Center have generated or saved thousands of jobs.

ARTS AND CULTURE

The Staller Center for the Arts offers live entertainment in its theaters and art exhibits in the Paul W. Zuccaire Gallery. Staller's regular film series presents the best in art, foreign and popular films. The renowned summer Stony Brook Film Festival showcases "indie" films and filmmakers.

The Charles B. Wang Center hosts dynamic Asian and Asian American cultural events. The University manages the Pollock-Krasner House and Study Center, where painters Jackson Pollock (leader of the Abstract Expressionist movement) and Lee Krasner lived and worked. And the Emerson String Quartet, dubbed "America's greatest quartet" by *Time* magazine, is Stony Brook's quartet-in-residence and part of our faculty.

CAMPUS RESIDENCES

Our 28 residence halls and 23 apartment-style buildings house 9,445 residents (8,230 undergraduate and 1,215 graduate students). Nobel Halls, our first sustainable student residence halls, received LEED Gold Certification in 2012.

STONY BROOK MEDICINE

Stony Brook Medicine, Long Island's premier academic medical center, encompasses Stony Brook University Hospital, Stony Brook Children's Hospital, 50 community-based healthcare settings throughout Suffolk County, and five health sciences schools — Dental Medicine, Health Technology and Management, Medicine, Nursing and Social Welfare. With 603 beds, the University Hospital serves as Suffolk County's only tertiary care center and Regional Trauma Center. Stony Brook Children's offers the most advanced pediatric specialty care in the region. We also are home to the Cancer Center, Heart Institute, Neurosciences Institute and Digestive Disorders Institute. A Medical and Research Translation (MART) building, dedicated to imaging, neurosciences, cancer care and research, and a new Hospital Pavilion and Children's Hospital are set for completion in 2016.

LONG ISLAND STATE VETERANS HOME

Our 350-bed skilled nursing facility on campus provides high-quality healthcare services for U.S. veterans and their families, and serves as a site for the education and training of geriatric healthcare professionals.

RESEARCH

The work of our distinguished faculty has led to such discoveries as the link between smoking and emphysema; the invention of the MRI technology that won a Nobel Prize for Medicine; development of the drugs Periostat® (for periodontal disease), ReoPro® (for cardiac angioplasties) and XIAFLEX® (for Dupuytren's contracture); an ultrasound method to speed healing of bone fractures; the cause of Lyme disease; technologies for 3D computer visualization; discovery of the golden bamboo lemur; discovery of the most primitive fossil bird, linking birds to dinosaurs; and the first nuclear magnetic resonance image of a living organism.

RESEARCH AND DEVELOPMENT PARK

This property, adjacent to the University, includes a Center of Excellence in Wireless and Information Technology (CEWIT) and the Advanced Energy Research and Technology Center (AERTC).

CEWIT houses research on homeland security, ad hoc wireless networks, wireless healthcare applications, sensor networks, and computational neurobiology and genetics. AERTC includes specialized labs for researchers from the University, federal institutions and private industry.

BROOKHAVEN NATIONAL LABORATORY

Stony Brook is the co-manager of Brookhaven National Laboratory (BNL) for the U.S. Department of Energy, joining a select group of universities responsible for major federal research programs. Located near our campus, BNL affords faculty and students a unique opportunity to work among scientists from around the world. In addition, BNL and Stony Brook work with Cold Spring Harbor Laboratory, one of the world's pre-eminent private research institutes.

STUDENT ACTIVITIES CENTER

The Student Activities Center (SAC) is the campus hub for lectures, conferences, movies, concerts and clubs. All spaces are wheelchair-accessible and Wi-Fi-enabled.

CAMPUS RECREATION CENTER

The Walter J. Hawrys Campus Recreation Center offers three floors of state-of-the-art equipment and facilities, including a three-court gymnasium, fitness studios and workout space, devoted entirely to the health and well-being of Stony Brook students, faculty and staff.

ATHLETICS

Stony Brook's 20 NCAA Division I teams — baseball, football, softball and volleyball, plus men's and women's basketball, cross country, lacrosse, soccer, swimming and diving*, tennis, and indoor and outdoor track and field — compete in world-class facilities such as Kenneth P. LaValle Stadium and a sports complex housing the new 4,000-seat Stony Brook Arena. Over the past five seasons, the Seawolves have won 35 conference championships and earned 21 national postseason bids.

* On hiatus during pool renovation

LIBRARIES

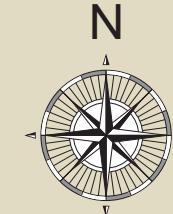

Frank Melville Jr. Memorial Library, the main library building on the West Campus, houses collections serving the fine arts, humanities, social sciences, biology and geosciences, and the Science and Engineering and Music branch libraries. The Chemistry, Marine and Atmospheric Sciences, and Mathematics/Physics/Astronomy branch libraries are located in departmental buildings. The Health Sciences Library is in the Health Sciences Tower on the East Campus.
